

Physicians & Providers Circle

Your generosity inspires, advances care, and heals.

As a community hospital, EvergreenHealth relies on philanthropic support to build and sustain state-of-the-art facilities, equipment, comprehensive care, and community health programs – all right here in our own community. Generous donors have ensured a continuum of outstanding medical care here on the Eastside. With your support, we can continue to invest in excellence and inspire others to join us.

The EvergreenHealth Foundation's Physicians & Providers Circle is a group of active and retired physicians and providers who promote the EvergreenHealth culture of philanthropy by giving back on an annual basis. Support via the Physicians & Providers Circle ensures that EvergreenHealth continues to be on the forefront of healthcare for our growing community. Your generosity inspires, advances care, and heals.
